

A Division of Norstar Aluminum Molds

July 2020

Welcome

All of us here at RotoMart hope that this newsletter finds everyone at your company healthy and safe. In the interest of assisting in any way we can to help your company get through the economic effects of the COVID pandemic, we will continue to offer products that we feel are of use in accomplishing that through more efficient mold operations as well as maintenance. That includes products of our own design and manufacture as well as those of other companies. This month we are focusing on maintenance and more specifically keeping molds clean. To that end please read further in our "Creative Solutions" section for more information.

From the RotoMart Team

What's Your Problem? "Keeping Molds Clean"

Excess mold release and miscellaneous dry blended additives buildup as well as common grease, grime, and dirt must be avoided to assure the best quality moldings and reduction of scrap parts. Therefore properly cleaned molds are an important part of mold maintenance.

Creative Solutions "New to RotoMart"

Offered below are two new additions to our mold cleaner line of products that we know will be very useful in helping you keep your molds clean. You can order these on-line or can give us a call (262-375-5630) if you want us to assist you or if you have any questions.

Stoner® A320 All Purpose Cleaner is a time-saving, concentrated, water-based cleaner for your molds. This powerful, high pH cleaner quickly cuts through, Mold Release, color build-up, grease, oil, dirt, stains, and other tough grime within minutes of application. [For details, please click here.](#)

Stoner® A499 Precision Mold Cleaner is a fast acting, non-chlorinated cleaner and degreaser for molds and tooling. It contains powerful cleaning agents to remove resin build-up, grease, oils, waxes, inks, tars and silicone oils from molds, tools, and equipment. Dries fast and leaves no residue! A499 also removes finger marks from molds and tooling. [For details, please click here.](#)

Used Mold "Retail Ice Machine"

What a great product! The base mold is cast aluminum and the body mold is fabricated aluminum. A complete set of foaming fixtures for all the above molds is included. For details, please contact us at info@rotomart.com.
