

*A Division of Norstar Aluminum Molds*

**March 2019**

## **Welcome**

Warpage, pinholes, blowholes and imbedded vent material are main contributors to scrapping rotomolded parts. For the past 15 years Supavents have served to greatly reduce scrap due to any and/or all of these. If you are not one of the many current users and believers in the benefits of the Supavent venting systems, we hope this newsletter will encourage you to take a further look at them. As always we are available to answer any questions you may have regarding any of the Supavent family of products.

***The RotoMart Team***

## **What's Your Problem?** **"Reducing Scrap"**

By way of loss of production capacity, excessive scrap from a number of causes can greatly impact delivery, quality and cause loss of profitability. Employing products and technology to eliminate scrap makes a lot of sense. Supavent is one such product that can not only help to eliminate scrap, but product better, higher quality parts cycle after cycle. Please read on to see how.

## **Creative Solutions** **"Supavent"**

Consider the benefits of Supavent to understand how they can assist in your molding process.

- Open clear venting every cycle. No plugged vent = less warpage
- No packing necessary -
  - No variation in the packing = no variation in the venting.
  - No rejects due to packing material falling out during the molding cycle
  - Design provides for slight pressure during the heat/curing cycle yielding higher quality parts
    - Better bubble elimination
    - Better formation of parts
    - Simple, easy installation and use

For a complete article on the Supavent recently published in *RotoWorld Magazine*, please [click here](#). For a demonstration, scroll down to the link below.

## ***Used Mold Offering "Playground Slide"***

This is the last product in our playground equipment inventory of used molds. If you are looking for a new playground market or are planning to expand an existing product line, we have an outstanding offering in the used mold area. Owner is ready to make a deal, so please contact us today at [info@rotomart.com](mailto:info@rotomart.com).

Our Used Mold Inventory is low and we are in need of good, useable molds. Let us help you clear out some old inventory and sell those used molds through [RotoMart.com](http://RotoMart.com). Contact us at [info@rotomart.com](mailto:info@rotomart.com) and we can tell you more.
