

A Division of Norstar Aluminum Molds

October 2020

Welcome

It has been a long haul trying to fight our way through all the business issues COVID has thrown our way. Our best defense during these times is to be as cost conscious and efficient as possible. We have been working on some new products that will help in that regard and are highlighting one in this newsletter. Knowing how similar higher priced clamps have been received, we are offering a lower price version in order to help you keep your costs down. As the national TV ads are saying "we're all in this together".

From the RotoMart Team

What's Your Problem? ***"Efficient clamping for larger molds"***

When it comes to choosing the best clamping method for larger molds, larger, beefier, tougher and sometimes more quantity of clamps provide the solution. Tougher may be hard to find, and more just adds to inefficiency of mold operation. What is needed are options for you to consider. Our new clamp below is just such an option.

Creative Solutions ***"New Clamp"***

Our NS3300 pull action latch clamp is a durable, die cast clamp with a holding capacity of 800 lbs. It has been developed specifically to provide additional clamping strength and durability required by large rotational molds and multiple mold spiders. The ergonomically designed handle fits comfortably in the user's hand and reduces stress on the hand during activation.

- Robust Design - Safe and easy to use
- Comfortable ergonomically designed handle
 - Quick and easy to use
 - Removes temptation to utilize pry bar for extra leverage risking damage to the clamp or mold

- Easy to fit an adjust - Improves productivity
- Has the same mounting specifications as a 311 clamp
- No need to add a pipe handle to the clamp
- Bolt on design

Used Mold "Horse Feeders"

NEW OFFERING

If you are in the farm equipment business or looking to reach a new market, this newly added product may be perfect. A group of five horse feeder molds are now available. These molds are in good condition and kept inside. There are a total of five molds, all fabricated aluminum. All of them make double parts. Three of the molds make standard horse feeders and two of them are corner molds.

Mold prices range from \$2000 to \$2500, however seller is anxious and would like to make a deal on the package of five molds. Molds are located in the Texas area.
